Flower Seeds

Clarkia

HINTS FOR SUCCESSFUL FLOWER GROWING

First: Prepare your seed bed well. The soil does not want to be worked when it is too wet or too dry, otherwise it will be too cloddy for fine flower seeds. Have the fertilizer thoroughly mixed into the top soil.

Second: Do not plant tender flowers too early. They will not thrive until the soil is quite warm anyway, and if planted early may germinate and then kill out if a cold spell sets in. Do not plant fine flower seeds too deep.

Third: Water carefully, so as not to wash the soil when seeds are planted, or after they are sprouted.

SHADE TREES

Due to so many new homes being built in Sheridan, and so many wishing to replace cottonwoods, we are carrying a much larger stock of shade trees than we ever have in previous years. You will note that we are carrying mostly the 5-6 ft. size. Our experience has taught us that this size transplants easier than the larger trees, and take root and grow faster. (These trees are too long to send by mail.)

Other trees and larger sizes will be secured on special order if available.

Norway Poplar—A fast growing, fine shade tree. Leaves similar to cottonwood, but has no cotton. 5-6 ft. size, each \$1.00.

Moline Elm—A very graceful growing type of American elm. 5-6 ft. size, each \$1.75.

European Mountain Ash—A splendid ornamental tree, especially beautiful in fall with its clusters of bright berries. 4-5 ft. size, each \$2.25.

Chinese Elm—A fast growing tree, widely used for shade, wind-break and hedge. If desired for shade, branches must be kept pruned from the time they are small. They withstand drought well, and do not want to be watered late in fall. These trees grow so fast, we have found it the most economical to plant good seedlings and keep them pruned. You will get a shade tree practically as soon as if you plant a larger tree, and at much less expense. Selected 3-4 ft. seedlings, each 20c; 10 for \$1.50. Selected 5-6 ft. seedlings, each 35c; 10 for \$3.00. (Also see "hedging".)

CARE OF ROSES

Whole books are written about the care of roses, so we can't give a complete course of instructions here. These few suggestions may be helpful.

1. When planting dig the hole deeper than the roots require, and if the soil is heavy put some coarse gravel in the bottom so your plant will get drainage; then mix the soil with some well rotted compost or manure.

2. Roses are heavy feeders, and need plenty of plant food to produce at their best. Fertilize often, but little at a time, using a good commercial fertilizer. The use of well rotted compost, cow manure or peat moss not only provides plant food but also a mulch so the ground will keep cool and moist even in hot dry weather.

POWER AGRICULTURAL SPRAYERS

At last a real power sprayer at a price the average rancher can afford to pay. Two models, for use with power take-off from tractor, or gasoline engine driven to operate from car or pick-up. Makes field spraying for weed control or killing grasshoppers and alfalfa weevil a low cost job that can be done quickly at the proper time. Also can be used as a stationary job for spraying livestock, barns or other buildings. See this sprayer at our store and ask for prices.

ALFALFA—CLOVER—GRASSES

Because of short crops in many grasses, and even more because of the unprecedented demand due to the government program of grain crop restrictions, all pasture and hay crop seeds are high in price this year—many of them an all time record high. We have tried to buy enough to supply your demands for this spring, feeling that even with the high prices for the seed, pasture and hay are as profitable a crop as can be grown.

We have made a major study of grasses for Wyoming and Montana, for both irrigated and dry land conditions over a long period of years and can help you in the selection of the proper grasses and clovers to plant for best results. Feel free to consult us. Service such as we offer comes only with many years of experience.

All prices on alfalfa, clovers and grass seeds are FOB Sheridan, and are subject to stock on hand, and to change without notice.

No extra charge for bags.
